<https://www.onlinezugangsgesetz.de/Webs/OZG/DE/startseite/startseite-node.html>

EMREX

EMREX

independent, international network
to enhance student data portability

- electronic data exchange solution
- to empower individuals to control their own student data
- exchange throughout lifespan, across borders for various purposes

<https://emrex.eu/>

ELMO

ELMO

xml-based data standard for student certificates and credentials

- Verified student achievement certificates can be transferred digitally and safely from one HEI to another.

<https://emrex.eu/>

NCP

National Contact Point

- Emrex-export functionality

<https://emrex.eu/>

SMP

Student Mobility Plugin

- Emrex-import functionality

<https://emrex.eu/>

EDCI

European Digital Credentials Infrastructure

- Technical infrastructure for organizations to issue digital credentials across the EU
- Developed by Europass for the transfer of information on skills and qualifications

<https://ec.europa.eu/futurium/en/europass/europass-digital-credentials-infrastructure>

EWP

Erasmus Without Paper

- Aims at bringing the Erasmus administration into the 21st century by going digital
- One important goal: replacing a paper-based workflow by a digital one

<https://www.erasmuswithoutpaper.eu/about>

OLA

Online Learning Agreement

- allows the Learning Agreement to be prepared online
- shared with both the home and host universities and
- signed using a touchscreen

<https://www.learning-agreement.eu/start/>

ESCI

European Student Card Initiative

- enables students to easily and safely identify and register themselves electronically at higher education institutions within Europe when moving abroad for studies
- eliminating the need to complete onsite registration procedures and paper work
- supports the EWP, EMREX and ESC (European Student Card) initiatives

https://ec.europa.eu/education/education-in-the-eu/european-student-card-initiative_en

ESSIF

The European Self-Sovereign Identity Framework

- Self-Sovereign Identity (SSI) is owned for 100% by an individual or an entity
- enables trusted interactions between individuals, institutions and businesses

<https://www.eesc.europa.eu/en/news-media/presentations/european-self-sovereign-identity-framework>

<http://www.selfsovereignidentity.eu/>

eIDAS

Electronic Identification, Authentication and Trust Services

Ensures that people and businesses can use their own national electronic identification schemes (eIDs) to access public services available online in other EU countries

<https://ec.europa.eu/digital-single-market/en/trust-services-and-eid>
<https://www.eid.as/>

EBSI

European Blockchain Services Infrastructure

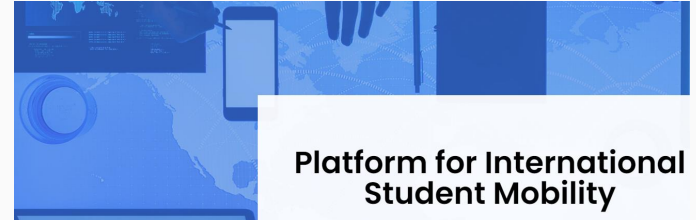

- Joint initiative between the European Commission and the [European Blockchain Partnership](#) (EBP)
- Deliver EU-wide, cross-border public services through the use of blockchain technology

<https://ec.europa.eu/cefdigital/wiki/display/CEFDIGITALEBSI/EBSI+Documentation+home>
